A year of Wellcome Open Research

Authors
- 1,012 authors
- 43 countries represented

Articles
- 304 institutions represented
- 13 Wellcome Centres and Institutes represented
- 142 articles
- 100 articles sent to PubMed

Number of institutions represented: 304
Number of countries represented: 43
Number of Wellcome Centres and Institutes represented: 13
Number of authors: 1,012
Number of articles: 142
Number of articles sent to PubMed: 100

Speed
- Average time from submission to publication: 23.5 days (n=142)
- Average time from submission to being sent for indexing in PubMed: 45 days (n=100)

Research Outputs
- 60% Traditional research articles
- 40% Other article types

Top 5 article types
- Research article
- Method article
- Research note
- Study protocol
- Software tool

Data & Software
- 104 Datasets in public repositories
- 62 Datasets in field-specific repositories
- 21 Software code entries

Peer review
- Median time to first review: 14 days
- Median time to second review: 25 days
- Median time to being indexed in PubMed: 33 days
- Number of reviewers: 406
- Number of peer review report views: 9,491

Influence
- 5 New Open Research Platforms
- 5th Most used publication venue for Wellcome-funded researchers
